

NEW SEALED LEVER LATCH FROM SOUTHCO MEETS DOOR INGRESS PROTECTION RATINGS

CONCORDVILLE, Pa., June 16, 2015 — Southco, Inc., a global leader in engineered access solutions, has added a sealed version to its successful C2 Lever Latch product line that provides the same consistent compression and vibration resistance as the standard C2 Series, but features a sealed design that meets NEMA 4 and IP65 standards for water and dust protection, making it suitable for use indoors and out.

Designed with a robust cycle life, the sealed C2 delivers high mechanical performance and compensates for misalignment. Like the standard C2 line, the sealed version features a variety of finishes and grip lengths, as well as locking options for added security. With their easy installation and operation and low profile design, these latches meet a wide range of application needs.

Global Product Manager Loc Tieu adds, “The sealed C2 Lever Latch meets ingress protection requirements without having to adjust or change existing panel or door designs, making it an ideal solution for new installations and retrofits that are exposed to external elements.”

For more information about Southco’s C2 Lever Latches, please visit www.southco.com, e-mail the 24/7 customer service department at southco.com/contact/en, call 610-459-4000 or fax your inquiry to 610-459-4012.

Southco is the leading and trusted global source for engineered access hardware solutions, including a variety of latches, locks, captive fasteners, quick access fasteners, hinges, handles, inserts, electronic access solutions, and other accessories for applications in the networking, telecommunications, computer, automotive, aerospace, mass transit, off-highway/construction, RV/caravan, industrial machinery, marine and HVAC industries.

Southco is passionately focused on delivering customized engineering solutions and global support for its customers. The company aspires to be a virtual engineering center for its customers’ engineered access solutions and is committed to providing outstanding quality and overall satisfaction. Southco’s promise to its customers is to connect, create and innovate to provide the best solution for every access engineering problem. www.southco.com
