

NEW CORROSION-RESISTANT, ALL PLASTIC CAM LATCH FROM SOUTHCO MEETS NEMA 4 AND IP65 STANDARDS

CONCORDVILLE, Pa., July 30, 2015 — Southco, Inc., a global leader in engineered access solutions, has expanded its successful E5 Cam Latch series with a new, plastic version. The redesigned plastic E5 Cam Latch features an all plastic, corrosion resistant design that meets NEMA 4 and IP65 standards for water and dust protection, making it ideal for use in highly corrosive environments.

The plastic E5 provides corrosion resistance and non-conductive latching for industrial machinery, marine, transportation and electrical enclosures. Like the standard E5 line, the plastic version features a variety of grip lengths and is available in numerous head style options for added security. Additionally, the plastic E5 features the same panel hole prep as the standard series and is available with pre-installed pawl options to minimize installation time.

Global Product Manager Loc Tieu adds, “With its all plastic design and improved corrosion resistance, our newest E5 Cam Latch is a cost effective alternative for a wide variety of applications, offering a highly modular and easy to configure solution for enclosure access.”

For more information about the functionality of E5 Cam Latches, please visit www.southco.com, e-mail the 24/7 customer service department at southco.com/contact/en, call 610-459-4000 or fax your inquiry to 610-459-4012.

Southco is the leading and trusted global source for engineered access hardware solutions, including a variety of latches, locks, captive fasteners, quick access fasteners, hinges, handles, inserts, electronic access solutions, and other accessories for applications in the networking, telecommunications, computer, automotive, aerospace, mass transit, off-highway/construction, RV/caravan, industrial machinery, marine and HVAC industries.

Southco is passionately focused on delivering customized engineering solutions and global support for its customers. The company aspires to be a virtual engineering center for its customers’ engineered access solutions and is committed to providing outstanding quality and overall satisfaction. Southco’s promise to its customers is to connect, create and innovate to provide the best solution for every access engineering problem. www.southco.com
