

CAPTIVE QUARTER-TURN FASTENER FROM SOUTHCO PROVIDES PERMANENT, VIBRATION-RESISTANT ACCESS

CONCORDVILLE, Pa., November 29, 2016 — Southco, Inc., a global leader in engineered access hardware solutions, has expanded its DZUS[®] Quarter-Turn product line with the launch of a captive-style fastener that prevents over tightening. The DZUS[®] D9 Tech Line Quarter-Turn Fastener combines Southco's proven quarter-turn and captive fastening technologies to create a next generation solution that provides consistent, reliable clamping force and quick access.

The DZUS[®] D9 Tech Line features a captive, spring-loaded design and tool-free operation that provides accurate, secure engagement and vibration resistance, while helping to prevent damage caused by over tightening the fastener. Available in press in, flare in and surface mount technology (SMT) styles, the DZUS[®] D9 Tech Line is available in a variety of stud lengths and mating receptacle options to accommodate varying panel thickness ranges. Additionally, the DZUS[®] D9 Tech Line is available with a standard bright metal or "prism" colored head that can be used to designate access through an array of standard and custom color options.

Global Product Manager Jim Grady adds, "With its quick access design and tool-free operation, Southco's DZUS[®] D9 Tech Line Quarter-Turn Fastener provides accurate, secure engagement and vibration resistance. Its captive, spring loaded design provides a set amount of clamping force when fastened, preventing hardware from becoming damaged by over tightening."

For more information about Southco's complete line of DZUS[®] Quarter-Turn Fasteners, please visit www.southco.com, email the 24/7 customer service department at southco.com/contact/en, call 610-459-4000 or fax your inquiry to 610-459-4012.

Southco is the leading and trusted global source for engineered access hardware solutions, including a variety of latches, locks, captive fasteners, quick access fasteners, hinges, handles, inserts, electronic access solutions, and other accessories for applications in the networking, telecommunications, computer, automotive, aerospace, mass transit, off-highway/construction, RV/caravan, industrial machinery, marine and HVAC industries.

Southco is passionately focused on delivering customized engineering solutions and global support for its customers. The company aspires to be a virtual engineering center for its customers' engineered access solutions and is committed to providing outstanding quality and overall satisfaction. Southco's promise to its customers is to connect, create and innovate to provide the best solution for every access engineering problem. www.southco.com
