

## NEW MINIATURE CAM LATCH FROM SOUTHCO OFFERS MINIMAL PROTRUSION FOR LIMITED SPACE APPLICATIONS

**CONCORDVILLE, Pa., October 30, 2018** — Southco, Inc., a global leader in engineered access solutions, has added to its broad range of cam latches with the introduction of the miniature E5 Cam Latch. Featuring a 30% reduction in intrusion compared to Southco's standard E5 Cam Latch series, the miniature E5 Cam Latch provides a significantly smaller footprint for limited space applications.

Southco's miniature E5 Cam Latch is NEMA 4 and IP65 compliant, providing moderate to high resistance to dust and water ingress. Economical and easy to use, the miniature E5 Cam Latch offers various tool styles and manual actuation options to accommodate application security requirements. Available in multiple grip sizes, the miniature E5 is ideal for applications with light duty doors, or where the inside of the enclosure has limited space and only permits minimal latch intrusion.

Global Product Manager Loc Tieu adds, "The miniature E5 Cam Latch is a simple and affordable solution for limited space applications. Reduced packaging and varying options for grip and actuation make the miniature E5 suitable for a wide range of industry applications."

For more information about the functionality of E5 Cam Latches, please visit [www.southco.com](http://www.southco.com), e-mail the 24/7 customer service department at [southco.com/contact/en](mailto:southco.com/contact/en), call 610-459-4000 or fax your inquiry to 610-459-4012.
