NEW COMBINED ROTARY SOLUTION FROM SOUTHCO PROVIDES SIMPLIFIED INSTALLATION AND IMPROVED INDUSTRIAL DESIGN

CONCORDVILLE, Pa., August 14, 2019 — Southco, Inc., a global leader in engineered access solutions, has recently expanded its successful line of rotary latching solutions with the launch of the R4-82 Rotary Latch with Paddle Actuator. The newest addition to the R4 Rotary Latch series combines a compact rotary latch with a heavy duty, square paddle actuator, enabling direct actuation without the need for a connected cable.

Available in steel with corrosion resistant zinc plating or black powder coat finishes, the R4-82 offers versatile key locking security. By combining both rotary latch and actuator into one solution, the R4-82 simplifies installation without sacrificing strength or performance.

With high ultimate load for heavy duty applications and options for thru hole or stud mounting, the R4-82 is an excellent solution for exterior applications that require robust performance. The R4-82 Rotary Latch includes an integrated bumper for reduced vibration, and is available with single or two-stage latching for enhanced safety and security.

Global Product Manager Cynthia Bart adds, “The R4-82 Rotary Latch with Paddle Actuator is a comprehensive solution that simplifies design and installation. The R4-82 builds off of our current rotary solutions, but features a reinvented paddle with a square shape that complements the modern exterior design of Industrial Machinery, Rail and Off-Highway applications.”

For more information about Southco’s complete line of R4 Rotary Latching solutions, please visit www.southco.com, email the 24/7 customer service department at southco.com/contact/en, call 610-459-4000 or fax your inquiry to 610-459-4012.

About Southco

Southco, Inc. is the leading global designer and manufacturer of engineered access solutions. From quality and performance to aesthetics and ergonomics, we understand that first impressions are lasting impressions in product design. For over 70 years, Southco has helped the world’s most recognized brands create value for their customers with innovative access solutions designed to enhance the touch points of their products in transportation and industrial applications, medical equipment, data centers and more. With unrivalled engineering resources, innovative products and a dedicated global team, Southco delivers the broadest portfolio of premium access solutions available to equipment designers throughout the world.
